

The BASF FreeHand® Event for Outdoor Nurseries

FreeHand® 1.75G herbicide and FreeHand® CA 1.75G herbicide offer the ornamental grower a valuable tool for preemergent control of certain annual broadleaf and grass weeds, and sedges. A powerful herbicide offering the efficacy of two active ingredients, dimethenamid-P and pendimethalin, FreeHand 1.75G herbicide controls more than 50 of the toughest, most troublesome summer weeds. Key benefits include:

- Excellent residual control in container media that stops weeds as they germinate
- Promotes higher quality, marketable plants
- Helps reduce labor costs associated with hand weeding
- Granular formulation for easy spreading and flexible application rates

Take advantage of new savings up to 12%

FreeHand 1.75G herbicide offers unsurpassed preemergent weed control in a convenient granular application – and now you can take advantage of special earned incentives. Qualify for the FreeHand Event with a minimum purchase of \$8,000.
