Marengo Benefits

- // Marengo offers outstanding residual control, lasting up to 8 months.
- // The longevity of Marengo reduces labor with fewer preemergence applications and less time making clean up applications.
- // Marengo can be used in production and non-crop areas including inside greenhouses beneath benches.
- // Start the season clean with an application in fall or spring for continuous weed control. Marengo can be tank mixed with a non-selective herbicide for control of existing weeds.
- // Marengo controls some of the most difficult weeds, including eclipta, bittercress, groundsel, oxalis, marestail, spurge, crabgrass and annual bluegrass.
